

## FRENCH TROOPS DO DARING FEAT

Sixty Volunteers Blow Up German Trench in Night Attack.

### FIERCE BAYONET CHARGE

PARIS, Feb. 20.—An official eyewitness account of the recent fighting in France and Belgium, given out today by the French War Department, says:

"During the past ten days our army obtained very brilliant results. The French superiority in ammunition and supplies is being more and more confirmed."

"At the moment when French infantrymen advanced to storm hostile works on the edge of the village of Carocoy the night of February 6 and 7 sixty volunteers accomplished the destruction of a skillfully arranged German trench which had been baptized the 'ambush'."

"The action commenced at 4 o'clock in the morning with the explosion of a mine which almost destroyed the trench. Our men charged immediately. Ten soldiers leaped into one section of the trench left intact and put to flight the defenders at the point of the bayonet and with hand grenades or made them prisoners, while others finished the destruction of the trench and prevented communication with the second line."

"We lost only three men killed. The Germans lost more than half a company."

"On a head leading from Bethune to La Bassée a mill which previously had been occupied by Germans was recaptured by a brilliant French charge on February 8."

**Africans Praised.**  
"The operations north of Arras were characterized by splendid bravery on the part of the French and African infantry, who charged German trenches blown up by mines, captured the Germans' principal line and repulsed vigorous counter attacks."

"Between Souain and Beaussart, where our lines were pushed forward more than a mile and a half in December, we again advanced on January 15 and 17, following a dozen successive attacks, and captured Hill No. 200, an important fortified position, when we organized and defended against impetuous counter attacks."

"On February 16, in the same region, another brilliant action, prepared by our artillery, developed the fact that the Germans were unable to reply, shot for shot, to our guns."

"North of Beaussart we captured 24 miles of the German front line trenches on the heights, taking 400 prisoners, including many officers."

"Pursuing this success on the next day, our troops brilliantly captured the German's second line over a front of half a mile, and took several hundred prisoners."

"We received brilliant successes in the Argonne region. West of Bar-le-Duc on February 17 we made a gain of several hundred yards. On the afternoon of the same day the German counter attack furiously and a violent hand to hand engagement ensued."

**Pierce Bayonet Fight.**  
"The morning after three hours of the continuing forces used nothing but bayonets. Our infantry delivered several magnificent bayonet charges and the destined German trenches were repulsed and the ground gained was definitely organized."

"The fighting was even more desperate on February 19 and 21. At Meuse, there the Germans delivered a strong artillery attack and showered field bombs simultaneously with the explosion of mines in our trenches. Then the German infantry charged the excavation, the first ranks being armed with grenades and bombs."

"The company of our advanced line were decimated and were obliged to withdraw the forces holding the trenches in the rear."

"A counter attack was executed immediately, and we succeeded in recapturing our second line under the machine guns. On the afternoon and evening of the same day by successive counter attacks we retook more of the lost ground."

"In front of our trenches on the ground lost and retaken, more than four hundred bodies of the Germans were counted. Facing our lines the first line of German trenches constituted a ridge made by the dead bodies of their men."

"The foregoing eyewitness story is more detailed than those received heretofore, the text of the report occupying four newspaper columns."

### CIVILIANS ILL IN CAMPS.

#### French Peasant Says Germans Fed Glue to Him.

Special Cable Dispatch to The Sun.  
PARIS, Feb. 20.—The misery in the German concentration camps for French civilians was vividly described today by two witnesses before a joint hearing held by the American Relief Committee House and the French relief committee under the chairmanship of Gabriel Hanotaux, former Minister of Foreign Affairs.

The witnesses told dramatically of the lack of hygiene, the lack of food, the lack of sleep on wet floors under leaky roofs. Men, women and children were piled together indiscriminately. The food was "rotten," the water was filthy, and many of the interned civilians soon began to suffer from rheumatism, typhoid and diphtheria.

The chief witness, who is a member of a liberal profession, said he was in a barracks which had a broken paper roof. He was not allowed to send any letters. There was a shortage of food, he said, unless the prisoners and sufficient money to buy it. He became ill from lack of nourishment and exposure.

The second witness, an honest old peasant said he had been in the same barracks for two weeks. Two old men, he said, died in his barracks. Young boys and girls slept in the same dormitory as the old men, without covering. When the men placed in the concentration camp, the witness said, the French civilians were sick in the barracks. The men, he said, feel as if they are dying.

### PARIS PAPER SUSPENDED.

#### "La Libre Parole" Defies Censor in Socialist Controversy.

Special Cable Dispatch to The Sun.  
PARIS, Feb. 20.—Edmond Desmoulin, president of the "La Libre Parole," has been suspended for two weeks for publishing an article in regard to the latter sent by Senator Gaudin de Villeneuve to Premier Viviani, in which the senator threatened to make an interpellation unless the Government disavowed the members of the cabinet, Marcel Sembat and Jules Guesde, who attended the recent international Socialist conference in London.

"La Libre Parole" printed the article in defiance of a request made by the censor.

## CANADA TREATS HER PRISONERS OF WAR SO WELL THEY ADVISE THEIR FRIENDS TO BECOME INTERNED

Well Fed, Clothed and Housed and Have Only Light Work to Do.

### MONTEAL, Quebec, Feb. 20.—

There are many husky Germans and Austrians in Canada today who are mighty glad that war came. Work is none too plentiful in Canada this winter and what there is of it is hard work—rattling saws, snow shovelling and all that. In the big Canadian cities there are long bread lines, and the charities organizations are overtaxed.

Through all this the alien enemy is getting three square meals a day, warm clothes and living quarters and it doesn't cost him a cent. Moreover, he doesn't have to work for it. At the Petawawa camp all they have to do is to cut firewood enough to cook their own victuals.

At Melville Island in Halifax, there has been some complaint over the lack of food, but the food is good. The men involved in pumping a player-piano. Out in the big camp at Spirit Lake, in the Abitibi region, way up in northern Ontario, they are working the men to get out logs, and in the spring will utilize them on road work.

That the prisoners are well off and know it is evidenced by the fact that the registration offices for enemy aliens do not have to do any round up work, but simply to sit and take the names of applicants for the job of prisoners of war.

### Urges Friends to Join Them.

American Consul Bradley of Montreal, who, as the neutral representative here, handles the mail from the prisoners at the internment camps, says that he has not only seen no complaints, but that many of the letters are written to friends in Montreal urging them to enlist in one of the several camps.

This applies particularly to Austrians. The comparatively few Germans who are included are inclined to be resentful of the confinement, though even from these there has been no word of complaint about the treatment.

The German and Austrians, soon after the alien enemies' regulations were put in force, were all kept at Kingston, but after a while trouble developed which culminated in a fight. Then the internment department decided to separate the prisoners, sending the Austrians to Petawawa, where they were engaged in brush cutting and road making until the snow came.

Later the Government established a camp in the Abitibi district, known as Spirit Lake camp, exclusively for Austrians, and at the present time there are about 300 Austrians at work there clearing the ground, erecting huts and stores, and having out what will be a miniature town.

**Soon Lost Their Jobs.**  
At the outset of hostilities the alien enemies feared that internment meant real imprisonment, and to avoid this they declared to the registrar that they had work and were able to support themselves and their families during the winter, and they were accordingly placed on parole. But after a few weeks their resources came to an end, they lost their work and could not get employment.

There were soup kitchens started for them and American Consul Bradley and his family undertook to care for 300 families, supplying them with all necessities, and in some cases even paying their rent. Coming in contact with these workless Austrians, Consul Bradley found that they had lost their jobs. Two things have contributed to this: the internment camps having heard from those who had been so interned of the time treatment received.

In order to force this petition was drawn up by the leaders among the Austrians in which expression was given to the desire of the Austrians to go to the Spirit Lake internment camp and work under the supervision of the guards. This petition was circulated among the Austrians and within a week 1,000 Austrian workmen were sent to Mr. Bradley, with a request to bring it before the Canadian Government.

### SAYS SCHWAB AIDS BRITISH.

#### German Embassy Charges Him With Shipping Submarines.

WASHINGTON, Feb. 20.—The German Embassy announced today that allegations that submarines are being built in the United States and shipped to Canada in parts had been brought to the attention of the State Department.

At the State Department it was learned that Charles M. Schwab, president of the Bethlehem Steel Company, which controls the P. & W. River plant and the Union Iron Works, had reiterated his assurance to Secretary Bryan that no submarines will be delivered to any of the belligerents during the war. It is stated, however, that both the State and Navy departments are aware and that Mr. Schwab does not deny that at the P. & W. River plant and the Union Iron Works twenty submarines are being built, ten at each plant.

It is understood that these are being built under contract obtained in England by Mr. Schwab. It was believed in official circles that the Government is in a position to know if any attempt is made to ship them to a belligerent.

The following statement was issued at the German Embassy:

"The parts of Bethlehem and the Union Iron Works at San Francisco are, according to reliable information, sending the component parts of submarines ordered by the British Government to Canada. Submarines for 125,000 tons are also being built at Boston and Seattle."

The attention of the United States Department of State has been brought to these facts by the German and Austro-Hungarian embassies as being in contradiction with the laws of neutrality."

At the State Department it was said today there have been no representations on the subject for several weeks.

### Work Begun on Submarines in San Francisco Yards.

SAN FRANCISCO, Feb. 20.—Officers of the Union Iron Works here admitted some time ago that work on the hulls of eight submarines was begun in fulfillment of a sub-contract placed by Charles M. Schwab. When Mr. Schwab announced that he had cancelled his contract in compliance with President Wilson's declaration of neutrality, it was understood that work had been stopped here.

The department points out that these tests were made in clear weather, and that after a cold and rainy spell more work would be found, as passengers cough and sneeze.

"If more cars are not ordered on the Interstate to relieve non-rush hour congestion," said Health Commissioner Goldwater, "the Board of Health will take steps in that direction. Failing action by the Public Service Commission, we will endeavor to protect the public health as we are authorized to do by the sanitary code."

### STUART LEFT WIFE \$242,470.

#### Former Erie Vice-President Had No Real Estate.

MINNEAPOLIS, I. I., Feb. 20.—John Stuart, vice-president of the Erie Railroad, who died at the Garden City Hotel on March 19, 1914, left a final accounting of his estate to the Surrogate's office today.

Mr. Stuart left no real estate, but his personal effects were valued at \$242,470, which Mrs. Stuart has transferred to herself as sole legatee.

### MRS. WHITMAN GIVES PARTY.

#### ABANDON, N. Y., Feb. 20.—

Mrs. Whitman, wife of the Governor, had her guests at a matinee performance of "The Little Cafe" today. Mrs. Arthur Andrews, Mrs. Walter A. Wood, Jr., Mrs. Laura Spencer Townsend, Mrs. Asa Wyckoff and Mrs. Lindsay B. Williams.

The infant son of Mr. and Mrs. Richard Macdonald Nelson was christened today, the child's godfather, Bishop Richard H. Nelson officiating. The boy's name is Richard H. Nelson. The godfathers were John L. Nelson and Richard H. Humphrey, while Miss Ruth Humphrey was godmother.

German and Austrian prisoners of war marching to work, and at their enjoyable labors in a Canadian concentration camp near Montreal.

ment, and so facilitate arrangements to send these men away. Mr. Bradley, who has been working in cooperation with the Dominion Government and who has received a letter from Premier Borden thanking him for his assistance, took the matter up with the Minister of Justice and through his good offices it was arranged that as soon as the men now at the internment camp got things in shape and erect sufficient huts to house their fellow countrymen the Government will dispatch the Austrians regularly to the camp.

Two things have contributed to this desire among the Austrians to get away from the camps. One is the fact that the Government supplies them with sheepskin coats, thick winter underwear, lumbermen's socks, over-shoes and haversacks for their belongings, feeds them regularly and pays them 25 cents a day for their labor in addition to housing them. The second reason is that the work is light and they have much freedom and plenty of amusements.

The guards have no trouble with them and the registrar of alien enemies for Montreal is receiving requests every day from batches of Austrians to be sent away, and they are being complied with as quickly as possible.

THIS ESTABLISHMENT WILL REMAIN CLOSED TOMORROW

**J. M. Gidding & Co.**  
Paris  
564-566 and 568 Fifth Avenue 46th and 47th STS.  
**New York**  
announce  
Importations

Brought by their representative who returned on the S.S. Lusitania yesterday—These new modes, not heretofore shown in America, will be on display as soon as they can be cleared through Customs—

Despite the abnormal conditions of Europe, this establishment will show a more important collection of Paris modes than America had dared to hope for—

In view of the present difficulties of transportation, the styles now presented should prove to be of unusual interest.

**Women of Fashion**  
accustomed to purchasing abroad, will appreciate the efforts of this organization in bringing the creations of the famous couturiers within the reach of those who depend upon the Parisian ideals of dress.

Our Custom Department offers its services in the reproducing of foreign models to individual order—or in the matter of submitting original designs upon request.

**GERMAN AVIATOR PUNISHED.**  
Made Mistake of Flying Over Swiss Territory.

Special Cable Dispatch to The Sun.  
PARIS, Feb. 20.—The German Government has notified the Federal Council that an aviator who on February 2 mistook the Swiss frontier for the French frontier and flew over Swiss territory on the 2nd of February, has been punished.

The German Government expresses keen regret at the incident.

### CAILLAUX MEN IN NEW GROUP.

#### "Social Democrats" to Boom Industry After the War.

Special Cable Dispatch to The Sun.  
PARIS, Feb. 20.—A new party has been added to the scene or more now in the Chamber of Deputies. The group is composed of Radical Socialists who were under the leadership of Joseph Caillaux and calls itself "the Social-Democratic group." The chief plan in the platform is the booming of commerce and industry after the war.

### Austrian Women Ban Pork.

#### By Central News.

AMSTERDAM, via London, Feb. 20.—Vienna women have declared a boycott on pork as a result of the high prices prevailing here. Here von Heilefeld, speaking in the Chamber of Deputies yesterday, protested against the increase in the price of potatoes.

## SHIP LINE SUED FOR WAR INCONVENIENCE

First Action of Kind Filed in New York Against the Cunard Company.

### The first suit for damages against a steamship company for inconvenience suffered in accommodations between England and this country since the war began was filed yesterday by Mrs. Martha B. Van Amringe, wife of Jay Van Amringe, a lawyer, and her brother, William C. Bowers 2d. The suit is brought against the Cunard Steamship

Company and the complaint alleges that John M. Bowers, father of the plaintiff, paid \$1,089 in July last for two state rooms on the Aquitania, sailing August 15 from Liverpool, for himself and daughter, Mrs. Mary B. Coppell.

The state rooms were transferred to the plaintiffs on August 6, but on August 10 they were informed by the defendant that the Aquitania had been taken over by the British Government. The plaintiffs then demanded that suitable accommodations be provided on the vessel sailing, the Campania, on August 15. But the Cunard line refused to give them accommodations and only paid \$183 for cabins which usually cost only 128. They were without sufficient funds to pay the sum and had to go to Mr. Bowers in New York for the money at a cost of \$24.50.

The plaintiffs ask \$5,000 damages for illness and inconvenience on the voyage, \$1,089 originally paid for the Aquitania accommodations, \$113 overcharge for the Campania cabins and \$124 for the cost of the cable message for funds.

**GREENHUT'S**  
J. B. GREENHUT COMPANY.
